

Cretacolor MegaGraphite POP Display

The range is conveniently merchandised in a small Plexiglass POP counter display - 5³/₈" (L) x 5¹/₂" (W) x 9⁹/₁₆" (H) - that hosts 12 pencils of each of the HB to 6B, and 24 of the 9B.

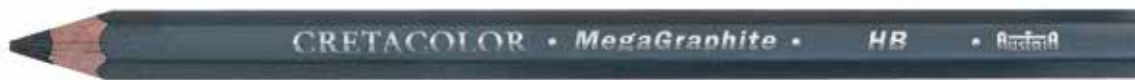

Mega Graphite pencils Assortment with Free POP - 15-17089

Cretacolor MegaGraphite

NEW

When you have been making pencils for two centuries, you probably know a thing or two about Graphite. Cretacolor Fine Art Graphite Pencils are exceptionally strong, made of high-quality graphite in the traditional hard cedar wood casing, which can be sharpened to a clean, fine point. They are formulated to be extra-smooth and easily blended, available in a range of 20 grades from 9H (hardest) to 9B (softest).

15-17-xxx

The Austrian manufacturer is now launching a range of Jumbo Graphite Pencils (polished gray extra-wide 10mm diameter body and 6mm lead). Rightly named MegaGraphite, these pencils are available in the most popular grades - HB, 2B, 4B 6B and 9B.

15-34-100

Asides from the MegaGraphite Pencils being available as open stock, Cretacolor still offers the 42-HB Tub Container, a perfect impulse buy at the cash wrap.
